

Drying with **tes** SAVES BIG MONEY!!

- Heated drying prevents or retards bacteria and mold growth
- Less demolition to walls and ceilings
- Fewer contractors required
- Hardwood floors less likely to cup and buckle
- Saves carpet and pad; less reinstallation charges
- Electricity usage 30 to 35 amps total job
- Quiet
- Claim files closed 2 to 3 times faster
- Happier customer - back to normal sooner
- Little or no ALE'S - negative airflow & fast drying; keeps owner there or back sooner!

*"The longer it's wet and stinky, the more I have to replace."
- Insurance Adjuster*
