

## Floor Care / Tile & Grout Cleaning

**Dirty Tile? Impossible dirty grout? Let us  
power the dirt away!**

Don't spend hours on your knee's scrubbing to clean your tile and grout. Let Gateway Cleaning and Restoration clean it for you quickly and easily using our specialized equipment. This system is also great for floors, counter tops and shower stalls.

### Power Washing

**Imagine this: A blast of 3,500 pounds of water pressure per square inch. That kind of power can strip away paint, graffiti, grease, chewing gum, and almost anything else clinging to a surface.**

With our power washer, we clean kitchens, cooking equipment, ductwork, sidewalks, parking lots, trash chutes, building exteriors - anything that requires industrial-strength cleaning power. Sometimes, considerable prep work may be involved: soaking, scraping, brushing, etc. before the power washing begins. Tough jobs can require repeated blasting, but when the job is finished, we leave the client with a fully cleaned area that usually looks years younger than its pre-washing appearance.

## Carpet & Upholstery Cleaning

Your carpet represents a significant investment. And nothing protects this investment more than a thorough cleaning by Gateway Cleaning & Restoration.

We offer the safest and most thorough cleaning available. All of our cleaning agents are non-toxic and safe for your home, your family, and the environment.

Gateway Cleaning & Restoration uses a hot water extraction process to clean your carpets (often called "steam cleaning"). This is the cleaning method nearly all carpet manufacturers and carpet fiber producers recommend — no other cleaning system will get the carpet cleaner or dry it faster!

**We also offer both dry cleaning and hot steam extraction for upholstery.**

## Janitorial

Today, there's much more to janitorial services than maintaining a clean property. We can be your single source provider for all your facility cleaning needs.

### Services Offered:

General Cleaning	Blind Cleaning
Window Washing	Carpet Care
Emergency Cleaning	Hard Surface Floor Care
Construction Make-Ready	Pressure Washing
Floor Maintenance	Upholstery Cleaning
Restroom Sanitizing	Window Cleaning

We specialize in all flooring types (vinyl, linoleum, terrazzo, marble, ceramic, Wood, rubber, concrete)

**Gateway Cleaning & Restoration provides you with a full range of janitorial services based on your organization's individual needs. Let us set up a maintenance schedule that fits your needs from 1-7 days a week.**

## Fire, Water, Sewer & Storm Restoration

**When unexpected disasters strike your home or business, all you want to do is get everything back to normal as quick as possible.**

Gateway Cleaning & Restoration is equipped and ready to restore your home or business after any disaster 24 hours a day, from broken water lines, to fire and smoke damage. We'll dry and clean everything from documents to carpet to help you avoid mold problems later.

***No job is too large or too small! And with TES, we can dry everything in record time!***

## Air Duct Cleaning

Airborne contaminants are pulled into the ducts every time the heating and cooling system runs. Over time, these contaminants build up inside the ductwork, creating an ideal breeding ground for mold, bacteria, fungi and other microbes.

**Gateway Cleaning & Restoration provides comprehensive indoor air duct cleaning, as a solution to these problems.** It can enhance indoor air quality, improve overall air circulation, eliminate built-up dirt and contaminants, and extend the life of heating and cooling systems.
